**DIRECTFILLER** WHITE, GREY and BLACK

Perfection made simple

## DIRECTFILLER WHITE, GREY and BLACK : every possible shade of grey

Expert in the field of premium automotive refinish paints, R-M brings today's bodyshop professionals products that are always in sync with their increasing demands for flexibility and perfection.

Innovative and efficient, R-M **DIRECTFILLER WHITE, GREY and BLACK** primer filler provides a powerful combination that enables real flexibility of application in the bodyshop.

**DIRECTFILLER WHITE, GREY and BLACK** has superb adhesion properties and excellent corrosion protection, enabling it to be applied direct to bare steel, galvanized steel and aluminium. By using **FLEXPRO**, application on plastic is as well possible. By eliminating the need for an etch primer, **DIRECTFILLER** has proved itself with bodyshops since 2012.

Today, **DIRECTFILLER WHITE, GREY and BLACK** provides perfect results with the added advantage of a full range of grey shades.

With multifunctional application the **DIRECTFILLER** range is an exceptional source of savings.

- ▶ **DIRECTFILLER** eliminates the need for an etch primer.
- ▶ Extensive reduction of process time by using **DIRECTFILLER** as a wet on wet process, so there's no need to sand.
- ▶ **DIRECTFILLER WHITE, GREY and BLACK** can be intermixed to produce a full range of grey shades to optimize the covering power of topcoats and resulting in **basecoat savings up to 40%**.

Anticipating the escalating demands of the high throughput bodyshop.

« The wet-on-wet process is a real asset, corresponding with the demands of the market, which has seen this technique grow by 20% in just five years »  
**Explains the R-M Undercoats Product Manager.**

Approved by leading vehicle manufacturers, **DIRECTFILLER WHITE, GREY and BLACK** complete the range of R-M Automotive Refinish systems.

## Saving time...and product!

The grey shade that matches your topcoat
