Advanced Estimating Seminar

Perfection made simple

## Module 4 : Advanced Estimating Seminar

R-M has always surrounded itself with the best experts from the automotive industry to improve the performance of a bodyshop quickly and efficiently.

Module 4, R-M's new management seminar, dedicated to bodyshop estimators and owners, is run over two days.

It allows you to have an overview of damage assessment, and to use the Audatex software to get an accurate estimate in order to actively increase your profitability.

You will master the principles of assessing repair costs including estimation of repair times, spare parts and paint materials and you will learn the basics to handle the Audatex estimating software.

Module 4 was designed to maximize your knowledge in the area of estimation and its link to other areas of the repair processes.

You will discover the importance of an exact estimate to achieve a high profitability, and the consequences of inaccurate estimates for the bodyshop.

The seminar has been developed in cooperation with our partner  the world leader in claim management solutions.

### Module 4 in detail :

- Calculation of repair time
- For the best management approaches, knowledge of basic KPIs (Key Performance Indicators) to measure the operational and financial performance of the bodyshop
- Influence of precise estimates on KPIs, their economic impact on the overall bodyshop results
- Relevance of the link between estimate process and repair process
- Communication between different departments is essential
- How estimates can improve repair planning and spare parts management
- With accurate estimating process in combination with other improvements in the bodyshop, the delivery time to the final customer can be reduced.

**Module 4 : Profit goals also depend on reliable estimates !**
