

SATA® Special Edition Spray Gun

11 September – 31 October 2017

German Engineering

SATAjet® 5000 B Sailor

SATAjet 5000 B Sailor – Spray away!

The SATAjet 5000 B Sailor was created as an entry for our 2016 Design Contest by Connie Manjavinis from Colorado (USA) who came in second place with her imaginative design. Inspired by classic Pin Up motifs and traditional tattoos, this colorful spray gun was developed in co-operation with graphic designer Bryson Kinslow. The launch of the "Sailor Lady" model will give all SATA fans the chance now to own this beautifully adorned spray gun.

The SATAjet 5000 B Sailor is, of course, a fully functional gun also suitable for daily use in the paint shop, due to its robust and attractive surface treatment.

Make sure to reserve one of these spray guns with your SATA dealer now!

- The SATAjet 5000 B premium spray gun with a unique and colorful coating finish
- Available in non-digital and DIGITAL® version, in HVLP and RP technology – while supplies last
