PROFILLER WHITE, GREY AND BLACK

Perfection made simple

PROFILLER WHITE, GREY and BLACK.

The high performance greyscale primer fillers

PROFILLER WHITE, PROFILLER GREY and PROFILLER BLACK combine to provide a complete, performance greyscale primer filler programme that is fast and easy to use, has excellent sanding properties and maximises the covering power of all R-M topcoats, reducing application times and material consumption.

PROFILLER WHITE, GREY and BLACK benefits:

By intermixing PROFILLER WHITE, GREY and BLACK together in accordance with R-M's greyscale guide, it maximises the performance of the R-M range of topcoats, leading to **massive savings in both application time and material usage!**

PROFILLER WHITE, GREY and BLACK can be applied to primed metal substrates like steel, galvanised steel and aluminium and its excellent sprayability means it can be applied quickly and easily. Due to its excellent corrosion protection PROFILLER WHITE, GREY and BLACK can also be applied directly over small sand-throughs on bare metal.

PROFILLER WHITE, GREY and BLACK's superior sanding performance, either wet or dry, reduces process times while ensuring the perfect substrate for topcoating with all R-M topcoats including ONYX HD and UNO HD.

To guarantee the perfect primer filler colour for your chosen topcoat, use the R-M greyscale guide!

Choose the grey shade that matches your top coat and **reduces consumption of base colours.**
